

FELTES

Portable Aluminium Gantry Cranes

The Feltes Gantry Crane comes in three models:

- **Static Gantry Crane**

A product of excellent German design, each model provides an optimal balance between portability, ease of use and load bearing ability, providing the user with maximum flexibility in meeting their lifting requirements.

Each model can be disassembled for ease of transportation and quickly reassembled in just 5 minutes.

The aluminium beams range from 2 to 5 metres (loads to 1,500kg) and 6 metres (up to 1,000kg).

STATIC GANTRY CRANE
